

Features

- Sofradir SNAKE InGaAs image sensor
- 640 x 512 pixel resolution
- Very good SWIR spectral response
- Exceptional SNR up to 1200: 1
- Up to 300fps @ full resolution
- Global shutter
- Available in monochrome SWIR
- Extended sensor and camera features
- Reduction of ROI in x- and y-direction increases frame rate
- 256 MROI for hyperspectral imaging
- Up to 12 bit greyscale resolution
- 16 bit 1 tap output in binning mode
- GigE interface according to GigEVision and GenICam

Connectors

MV3-D640I-M01-144-G2
